

I am concerned that a LPFM broadcaster will displace K-Love 89.7. This and Air 1 96.3 are the only stations that I can listen to with my entire family. No Viagra or breast enlargement commercials & no vulgarity or foul language. We need these stations to remain on the air for all families. K-Love promotes family activities and safe clean fun for all within our listening area. K-Love serves the community by providing a clean safe alternative for all. We cannot afford to lose broadcasters such as K-love or Air 1 due to expansion of LPFM. Please do not expand this service & let them take priority over the existing stations! K-Love is run solely by donations & apparently has a great enough following to continue to broadcast & grow without commercials. Thank You, Tracey Morris
